EXPERIENCE

Webkul Software Pvt. Ltd.

10/2021 – 08/2025

Bagisto Open Source e-Commerce Platform

10/2021 to 08/2025

Description: Worked and Testing performed on Bagisto by identifying 100+ functional and UI issues, checkout, and localization modules, and collaborating with developers via GitHub for quality code delivery.

Responsibilities:

- Conducted functional, regression, and exploratory testing on core eCommerce.
- Reported and tracked issues via GitHub with detailed reproduction steps and impact
- Tested compatibility across browsers and devices to ensure responsive design
- Ensured end-to-end user flow and workflow validations in front-end and back-end.

Krayin Open Source CRM Solution

06/2024 to 06/2025

Description: Contributed to Krayin CRM by reporting and validating 100+ bugs in lead management, UI, and workflow automation, enhancing product quality through manual testing and GitHub collaboration.

Responsibilities:

- Performed manual testing of CRM modules like leads, contacts, tasks, and pipelines.
- Validated business logic, data integrity, and role-based access across user roles.
- Documented test scenarios and reported bugs via GitHub issue tracker.
- Worked on ACL Users, Inventory Transfer Management, Purchase Order Management, Quotation and Lead Management.

Aureus Open Source ERP Solution

03/2025 to 08/2025

Description: Tested and validated core ERP modules including inventory, sales, and accounting; reported 90+ functional and UI issues to improve integration and system performance.

Responsibilities:

- Validated key ERP modules including inventory, purchase, sales, and accounting.
- Reported functional/UI issues via GitHub and verified post-fix.
- Participating in requirement analysis and identifying test scenarios early in the SDLC
- Ensured end-to-end user flow and workflow validations in front-end and back-end.
- Creating Test Plans, Test Scenarios and Test Cases for Effective Testing.

Description: Tested and validated multiple Bagisto-based eCommerce themes, including Vape Commerce, Quick Commerce, Fashion Commerce, and Jewellery Commerce. Ensured visual consistency, functional accuracy, and responsiveness across various devices and browsers. Focused on theme behavior across categories, product pages and checkout flows.

Responsibilities:

- Verified UI/UX alignment with brand-specific theme requirements.
- Performed cross-browser and responsive testing for desktop and mobile.
- Conducted end-to-end testing on category pages, product listings, and checkout modules.
- Reported layout issues, responsiveness bugs, and integration mismatches.

PROJECTS

Viva Voce – Shopify Sync with Bagisto (Lead QA, Team of 4)

Led end-to-end QA for Shopify-Bagisto integration (Better-mode customization). Designed test plans, scenarios, and cases, and executed functional and integration testing of data sync between Shopify and Bagisto. Managed a team of 4 testers, monitored progress, and ensured timely defect resolution. Acted as primary point of contact for client communication, requirement analysis, and daily Agile updates..

MLM with Blockchain (Multi-level Marketing Platform) (Individual QA Ownership)

Performed manual testing of MLM workflows integrated with Blockchain (Personal Team, Global Team). Conducted requirement analysis, workflow validation, and test case design for ERP-based integrations. Interacted directly with the client, provided demos, and managed ongoing updates.

Solum Group – Multi-Website E-commerce (Team Lead, 2 Testers)

Managed a team of 2 testers, assigning test plans and ensuring effective execution. Validated multi-site workflows across catalog, checkout, and backend integrations. Collaborated with Business Development Executives (BDEs) and developers for requirement analysis and project planning.

Essenzi Perfumes – Custom E-commerce Platform (Lead QA)

Worked as Lead QA on multiple extensions: Marketplace, Gift Wrapping Extensions, Google Analytics, Google Tag Manager. Performed functional, regression, and cross-browser testing, ensuring system reliability. Implemented tracking integrations via Google Analytics, Google Tag Manager, and SEO testing. Collaborated with clients and Business Analysts to clarify requirements and achieve quality outcomes.

EDUCATION

- Bachelor of Technology in Mechanical Engineering from Rajasthan Technical University, Kota, Rajasthan, India– 2019
- High School from Army Public School Kota, All Subjects, Rajasthan, India - 2011
- Intermediate from Army Public School Kota, Science with Mathematics Rajasthan, India - 2013
